

Doorlocks & Security on the Chrysler Sebring and Dodge Stratus 2001 & up (except Coupe)

On models equipped with a factory alarm system, you can use the LT.GREEN/ORANGE for both locks and security. A double pulse will be required to unlock the doors. For vehicles with no factory alarm, use the WHITE/GREEN for lock and unlock. Both wires are located in the C4 connector on the bottom of the BCM/Fusebox assembly under the driver's side dash.
